How we use cookies

A cookie is a simple text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie. Each cookie is unique to your web browser. When you agree to accept cookies, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site.

Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

West Green Primary School uses traffic log cookies to identify which pages are being used. This helps us to analyse data about traffic to each Website page, whilst also allowing us to improve the Website and develop it in line with your requirements. We only use this information for statistical analysis purposes before removing the data from the system.

It is important to note that cookies do not give **West Green Primary School** any access to your computer or any information about You other than the data you choose to share with us.

You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can set your browser setting to decline cookies if you would prefer or use our cookie form when you first land on our website to choose between the cookies you want or don't want.

Advertising, Marketing and your Communication Preferences

There are lots of different ways you'll see adverts for **West Green Primary School**, and these may not be using your personal data – sometimes we buy advertising space in the real world and on websites and in social media. If you see Park Hill Primary School adverts on websites and in social media, these may not be directed specifically at you, we may just have bid for the space. We may also be using a search engine or social media platform's 'lookalike' products, which are not directed at you and which you can control using each search engine or social media platform's privacy settings.

We may use your Identity, Contact, Technical, Tracking, Usage and Profile Data to form a picture of what we think you may want or need, or what may be of interest to you. This is how we decide which products, services and offers may be relevant for you and tell you about them. We may carry out direct marketing by email, phone, text and post.

On our website, we make your direct marketing preferences clear. You may choose to opt in to receive our newsletter, or as part of creating an account. We may also be able to send our customers relevant direct marketing about our own products and services unless they opted out during the purchase journey. We may also send you a little nudge as part of the purchase if you have left products in the basket without checking out.

At all times you have a right to opt out of direct marketing. The easiest way to opt out is to use the unsubscribe link at the bottom of the communication or just email us at dataservices@judicum.com

We will never share your personal data with any company outside of the **West Green Primary School** or Elemental Education Group for direct marketing purposes.

We also work with partners to try and promote the reach of our adverts and use analytics and retargeting for this reason. We use Tracking Data to deliver relevant online advertising, including on websites and in social media.

Tracking Data, and in particular cookies, help us to deliver website and social advertising that we believe is most relevant to you and to potential new **West Green Primary School** families. The cookies used for this purpose are often placed on our website by specialist organisations – and this is also why when you've been on the **West Green Primary School** website, you might see content from our website again. This is called retargeting. Cookies can also tell us if you have seen a specific advert, and how long it has been since you have seen it. This is helpful, because it means we can control the effectiveness of our adverts and control the number of times people might be shown our adverts. Cookies also help us understand if you've opened a marketing email because we don't want to send you things you don't read.

If you want more information about Tracking Data, in particular cookies, see **Cookies** below or view our separate cookies Policy, which can be sent to you or viewed from the website.

Almost all the cookies that relate to advertising are part of third party online advertising networks. If you'd like to read about how you can control which adverts you see online, see opt-out programs established by the [European Interactive Digital Advertising Alliance](#) and the [Digital Advertising Alliance](#) (United States). We do not control cookies which are set by advertising networks.
